

**Braemar
Hospital**
Your choice for excellence

Dear Colleague

What's new at Braemar?

New Hospital Site Purchased

A superb site for our new hospital has been purchased.

That site is "The Nest" property on the corner of Ohaupo Road and Kahikatea Drive previously owned by The Salvation Army.

The first stage of the development will allow us to relocate our Tainui Street hospital plus build in some additional capacity. The second stage will see our day hospital in Knox Street relocated.

At over 1.6 hectares the site is much larger than required for our current needs and allows plenty of room for expansion in the future.

Return-to-Theatre Indemnity

Braemar Hospital is 100% owned by the Braemar Charitable Trust. As part of their charitable obligations the Trust has recently introduced a 'return-to-theatre indemnity' that meets the hospital costs for uninsured patients should an unexpected return-to-theatre be necessary.

Why choose a Braemar hospital?

Special Care Unit (ICU / HDU)

The unit meets the post-operative needs of patients requiring ventilation or close monitoring following major surgery.

Affordable Private Healthcare

The fees charged by Braemar Hospital are very competitive.

Braemar Hospital is not listed on the stock exchange, we do not have to pay large dividends to private shareholders, we are not run remotely by a parent company, and we do not have to make a contribution to the running of a corporate head office.

Any surpluses generated are dedicated to the ongoing investment in medical equipment, instruments and facilities - for the benefit of the hospital, Associates and their patients.

Accepts All Health Insurance Companies

Braemar Hospital accepts all patients - regardless of which insurance company they may belong to, or indeed, regardless of whether they have insurance cover or not.

Quality Services

Braemar Day Hospital was the first hospital in New Zealand to gain certification under the new Day-stay Surgery and Procedures Standard (NZS 8164:2005), for a full three year period.

Braemar Hospital has Certification under the Health and Disability Sector Standards (Safety) Act also for a full three year period.

Patient Satisfaction Surveys show that 99% of our patients rank our service as 'Excellent' or 'Above Average'.

Choice and Flexibility

An ageing population, increasing demands and expectations, and the cost of new technologies provide challenges for both the private and public health sectors.

Medical and technological advancements have increased our ability to treat disease and injury. This has led to a greater expectation as to what should be achieved by the health sector. In the public sector the increase in complex surgery has come at the expense of lower cost surgery such as hernias and varicose veins, and the rationing system of waiting lists has led to these, and more complex procedures, being completed in the private sector.

Private healthcare offers choice and flexibility. It also offers access to some of the best Specialists in a timely manner without the restrictions of a waiting list.

At Braemar patients can be assured of a quality service at competitive rates.

Visit our website for more details: www.braemarhospital.co.nz

Quality care does cost less at Braemar hospitals.
